#### SOCIAL SUCCESS

#### ESP ENHANCE

#### CONFIDENCE

#### EMF BUSTING

#### AURA CHARGING

#### REMOTE INFLUENCE

### SPECIAL POINTS OF INTEREST:

- Active/ Passive energy matrix
- 4-6V to 9V input DC
- Trend Engineering Microcomputer
- Resonator Cell
- Amplification Coil
- Tuning Interface

The Ultra Rad-X/X2 takes simplicity to a max. Structural Rates are no longer set with a dial, a pendulum or a keypad. Instead, your machine generates a special structural rate corresponding to your intentions. How do you achieve this? Simply focus on your desire, and when the vision of your wish shines crystal clear, press the "S4" button. The microcomputer then launches a unique algorithm to produce a special rate/trend number corresponding to your intent. That was the hard part. From there on, it's

just a waiting game till your intentions manifest

#### USAGE

- 1) Plug in the unit. 7V to 9V is ideal
- 2) Obtain a symbol of your target (*like a picture of you*) and a symbol of your trend/desire (*like a drawing of a pile of money*).
- 3) Place symbols of both your target & desire upon the brown plate. Focus on what you want to happen. See the desired result in your mind's eye. See it as though you were in it. Feel it, like you were enjoying a 3D movie. Have full confidence that what you want is already happening. These are the most important steps!
- 4) Your intuition will then whisper that you've made a strong connection with your intended results. At
- 5) In the rare chance that the resulting numbers don't feel right (your intuition will tell you), you can press the S1 key to increase the number by one unit, or press the S2 key to decrease the number by one unit. Keep doing until things feel "just right."
- 6) Should your intuition tell

this point, press the S4 switch (consult diagram on the succeeding page). The microcomputer then runs an algorithm to generate a special set of numbers that **UNIQUELY REPRESENT** your intended results. These numbers are magickal sigils. They symbolize what you want, and for as long the output number glows on the machine, **next** to the other symbols you drew, your wishes are receiving chi energy and acting upon reality to influence events in your favor.

## UNLEASH THE POWER!

- 7) Once you feel you have the right sigil number, you must leave the machine and forget all about what you just did. Go about your regular business. If you keep thinking about your desires, you hold

back the energy. This lessens your success.

- 8) Be confident that the universe is already acting upon your thoughts. You may shut of the unit after 20 minutes. Don't worry, the energy is still broadcasting as long as the symbols are on the plate.
- 9) Give a week for manifestation. Often you will receive opportunities that lead to the desired results.

ACT UPON THEM!!!

- 10) If you decide to turn the machine on again for the same magical operation, use the S1 or S2 switches to count up or down till the original number is reached. Remember: that number represents a specific operation. If it is invoked again in the presence of the chi generator, those intentions receive energy.

REMOTE INFLUENCE

**Press S1** to increment the display by one. Pressing S1 continuously also increments display. Press S1 (first) then simultaneously press S3 to increment the 100s column of the display. DISP 3 and 4 defaults to 0.

**Press S2** to decrement display by 1. Pressing S2 continuously also decrements display. Press S2 (first) and then simultaneously press S3 to decrement the 100s column of the display. DISP3 and 4 defaults to '9'

**Press S3** to clear the display to 0000 or cancel a count down operation.

**Press S4** to generate a unique rate number corresponding to your wish / intention/ desire. The resulting number is a sigil that

Diagram of controls

### SPECIAL POINTS OF INTEREST:

- Active/ Passive energy matrix

- Trend Engineering Microcomputer
- Resonator Cell
- Amplification Coil
- Tuning Interface

## UNLEASH THE POWER!

represents the entire gamut of your current operation. Remember that number. You can reuse it when you launch the same operation later on. For instance, if your desire is to earn 1M in one year and the rate number comes out 7777, then this special number represents the totality of your wish. Whenever you think '7777', your mind brings to bear all experiences related to getting rich by 1M in a year.

**Press S5** to automatically decrement the displayed rate until it

reaches zero. S5 controls the Trend Explode Function by counting down the rates to zero. When the screen hits 0000, your intent laden operation is forcefully blasted into the universe. Turn off the box after this.

**Press S6** to recall the previous display setting

### The Prana Generator.

The block with a wire sticking

out is the energy core. It consists of organic materials, various metallic elements, and crystalline powders. Embedded within is a special configuration of caduceus and mobius coil. The coils force scalar waves to propagate the prana energy in all directions. This energy fuels your desires as represented by your drawn symbols and the computer generated sigils.

**The result:**

**Answered Prayers.**
