FOREVER

All this news of NSA government spying has got me spooked.

Did you know they actually try to predict if you might commit a crime in the near future and put you on some kind of secret watch list?

It's based on a controversial technology known as "Predictive Behavioral Modeling" (Or PBM for short).

And it got me wondering, what if this could be used to know exactly what a woman wants...

The exact steps that would make her sleep with you...

And which girls would go home with you resistance free to hookup.

Well, a guy I know named John has discovered a controversial way to almost read a woman's mind...

To know what she's thinking, and what she wants so you can get laid easy.

As you'll see, this is pretty controversial.

Here's How It Works

Use THIS Trick To Read Her Mind

Because of the secret data John's got access to.

For example, after looking for what he called "hot patterns" John uncovered a few secret, undercover questions you can ask a woman that will tell you if she'll sleep with you the first night.

And the weird part is, these questions have nothing to do with sex or hooking up.

For example, John discovered that women who answer YES to the question "Do you like the taste of beer?" were 13x more likely to sleep with a guy the first night.

If you think this is weird, women who said they liked horror movies were 4.6x more likely to sleep with a guy on the first date...

And women who said they had tried online dating before were 3.2x more likely to go home with a guy the first night.

Just imagine if she says yes to all three!

Now this information is just the tip of the iceberg.

John didn't just discover questions to know if she wants to hookup...

He also phrases to make her want to sleep with you – even if she turned you down in the past.

John explains it all in his free “checkmate” video below...

“15 minutes later...she was standing there wearing a sexy skin tight dress”

Kevin Wrote In To Say...

“I used a few of your tricks online last Friday night... I was up late and thinking of going to a strip club or something but I figured I'd do something crazy and try your blueprint online. It took me just over an hour to get a girl to agree to come over to my place. I've never done anything like this before and I've definitely never thought a girl from an online dating site would ever be willing to just come to a random guys house for sex, but 15 minutes later my doorbell rang and she was standing there wearing a sexy skin tight dress with a bottle of wine in her hand. We had sex all night long, there was no bullshit and I've done this two more times since fairly easily..”

“talk to a real, live person on the phone”

A Recent Buyer Stephan Wrote...

“I almost never buy online because I don't think it's safe, but your extra security features and discreet billing allowed me to purchase with confidence. I was very reassured when your support staff was able to answer all my questions in just minutes and that I could talk to a real, live person on the phone if I wanted. I wish more people would put as much effort as you do into customer service and security...”

“I get almost ZERO resistance”

Chan Wrote...

“I've had girls come over to my place in the past but we'd always just kiss a little bit and then she'd eventually push me back and tell me she wanted to slow down and the night would end there. But after following your blueprint, I get almost ZERO resistance. And now I know once she's back at my place, there's no way she's going home without banging me first...”
