## Four Technologies

**Binaural Beats-** Building upon the wildly successful [Deep Mind](#) series developed by Exceed International in 1999, the CD harmonics nudge the user from the hectic Beta brain state down into the euphoric Theta state where hypnotic reprogramming easily penetrates the mind and unleashes a payload of life-enhancing suggestions. Seeming to come from within your own consciousness, these suggestions ultimately hotwire your brain and spark the awakening of your chakras. [There's more.](#) Our binaural beats uniquely *resonate at EIGHT precise frequencies to attune your subtle energy centers* (chakras). You may experience throbbing sensations, perspiration, a lightening of your spirit and a sudden expansion of your consciousness. Flashes of light may crisscross your mental screen as various parts of your body heat literally up. Don't worry, it's just your energy patterns altering to accommodate the released chi. In time (a week at the most), you will adjust to your elevated energy levels and these wild sensations will minimize. Think of it like taking a roller coaster ride into the astral planes of your psyche.

**HYPNOTIC programming-** Embedded within the binaural harmonic matrix is a unique hypnotic guided visualization crafted to take your desire, hammer it home into your brain, infuse it into your subconscious and launch a play of events that will lead to its consummation!

**NLP-** As we are well aware Neuro-linguistic Programming is naturally the most persuasive form of communication ever created now. What if NLP were used on YOU to reshape your mind for the better? Our CD deploys subliminal suggestions crafted with NLP affirmations in the imperative and permissive modes to home in on both the left and right hemispheres of the brain. To date, we are one of the few to utilize such techniques.

**Chi Charged (TM)-** Prior to shipping, we charge each CD on a radionic device and program it to radiate chi energy. That's not all. Through a structural link on the CD label, an orgone generator in our office continually recharges the CD with free chi energy. For as long as you're within vicinity of your CD, you will absorb the life

force

All you need are a set of high quality headphones, a comfy couch, and about quality listening time every night to *literally unleash the power within.*

Headphones Recommended

Find a quiet place, plug in your high quality headphones (Sennheiser recommended), lie down then listen to your soundtrack.

## Directions for use:

- 1) Think of a specific goal. Know what it is. Picture it in your mind in 3D color. This is the goal that you will call upon when you listen to the CD.
- 2) Listen once a day before bed. At a certain point while listening, you will be called upon to visualize that goal. As you visualize it, your mind will be bombarded with

## UNLEASH THE POWER!

imagery, subliminals and motivational frequencies that create powerful energy. This energy will manifest your goal. It normally takes three weeks to a few months to fully realize a desire. The more implausible and beyond your control your desire, the longer it shall take to manifest it.

- 3) Focus on one desire at a time. Once you achieve one ambition, go on to the next.

- 4) The program must be listened to ACTIVELY, not PASSIVELY.
- 5) Have fun ALL THE TIME! A playful attitude multiplies the effects of any manifestation system.
